UPC Series
Cross-Connect Housings

Key Features

- Rugged metal housing made of mill-galvanized steel for durability and low maintenance costs
- Our unique multi-stage paint process meets or exceeds EPA standards, and provides a tough corrosion resistant finish for longer life
- Double-access hinged doors offer 360° access to all internal components
- Removable base cover provides simplified installation
- Cross-connecting mounting brackets simplify installation
- Close-cell neoprene door gasketing provides weatherproof protection for internal components
- Stainless steel door buckle lock with provision for padlock ensures security from unauthorized entry
- Pad or stake-mount capability allows installation flexibility for multiple applications

Telephone cross-connect closures for distribution and feeder pairs.

Description

UPC1254 is a round-cornered rectangular-design telephone cross-connect enclosure. Included in this series are R66 Block mounting brackets, bonding and grounding brackets, weather-stripping, and two mounting stakes.

Application

UPC1254 serves as an above-ground housing for terminating distribution pairs and feeder pairs through cross-connection. Recommended only for desert-like climate. Use standard cross connect for all other applications.
